

D-Link Quick Installation Guide

This product can be configured using Internet Explorer 5.x or above; Netscape 6.2.x or above; Apple Safari; Linux Nautilus.

DSM-622H/DSM-624H

mediaLOUNGE™
Entertainment Network

Wireless Central Home Drive

Before You Begin

You must have at least the following for configuration:

1. A computer with Windows XP, 2000, Me, 98SE, Apple MAC OS X, or Linux based operating system with an available Ethernet port.
2. Activating UPnP in Windows XP and Me is optional, but is highly recommended for ease of use.

Check Your Package Contents

**DSM-622H 20GB Wireless Central Home Drive
or
DSM-624H 40GB Wireless Central Home Drive**

CD-ROM with Manual

Ethernet (CAT5 UTP/Straight-Through) Cable

Antenna

Stacking and Vertical Stands

5V DC Power Adapter

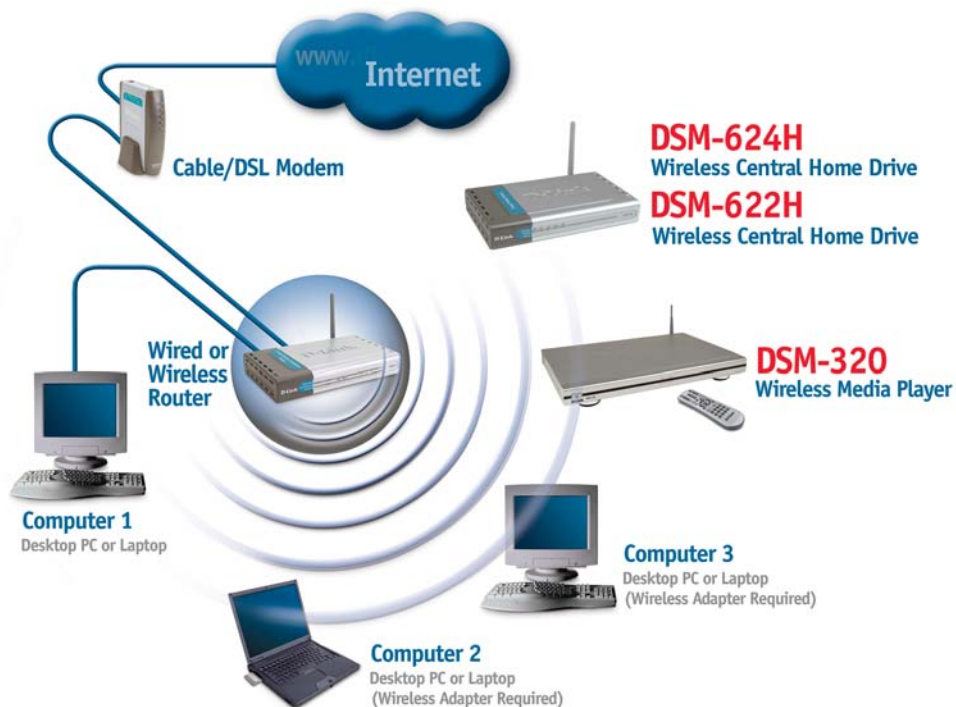

Using a power supply with a different voltage rating will damage and void the warranty of this product.

If any of the above items are missing, please contact your reseller.

DSM-622H/624H Overview

When you have completed the steps in this Quick Installation Guide, your connected network may look similar to this:

A default IP address of **192.168.0.65** is assigned to the unit if a DHCP server is not found.

2 Hardware Overview

3

Hardware Installation

- A.** Connect an Ethernet cable to the Ethernet jack located on the back of the DSM-622H/624H.

- B.** Connect the antenna to the antenna connector located on the back of the DSM-622H/624H.

- C.** Connect the power adapter to the connector on the back panel of the DSM-622H/624H. Then plug the other end of the power adapter into a wall outlet or power strip. The Power LED will be on to indicate proper operation.

- d.** After the Ethernet cable is securely connected, connect the other end of the Ethernet cable to your network router or switch.

4

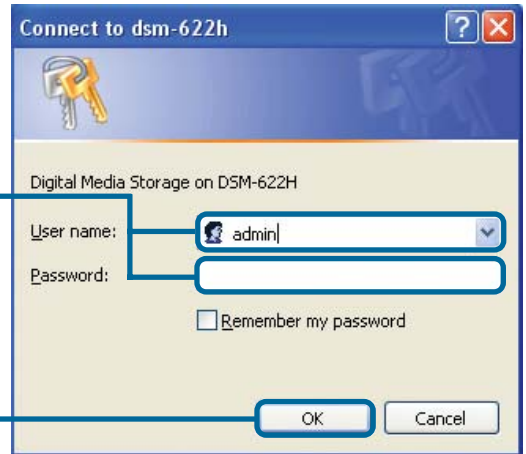

Setting up a Wireless Connection

Open your Web browser and type **http://dsm-622h** or **http://dsm-624h** into the URL address box. Then press the **Enter** or **Return** key.

The login pop-up screen will appear.

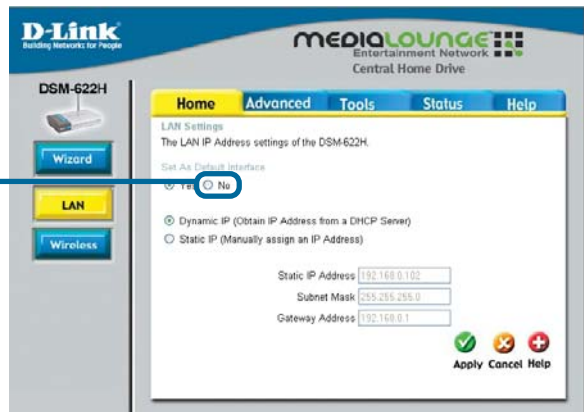

Type **admin** for the username and leave the password field blank.

Click **OK**.

Once you have logged in, the **Home** screen will appear. Click on the **LAN** tab on the left side of the screen.

Click **No** under the **Set as Default Interface** setting.

4

Setting up a Wireless Connection (continued)

After clicking **No**, the Wireless screen will appear.

Click **Yes** under the **Set as Default Interface** setting.

Select your **Wireless Mode** and input your wireless settings.

Click **Dynamic IP** or click **Static IP** and manually input your Static IP Address, Subnet Mask, and Gateway Address .

Click **Apply**.

You can now unplug the Ethernet cable and access the DSM-622H/624H wirelessly.

Note: For information on configuring the DSM-622H/624H as a wireless client or help with the other features on this page, please refer to the section titled **Using the Configuration Utility** in the manual.

Your wireless connection setup is now complete!

5

Accessing the DSM-622H/624H in Windows Me or XP

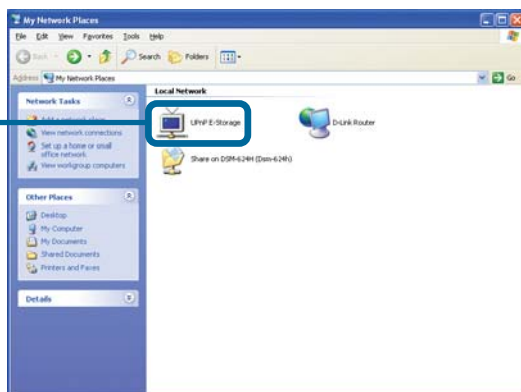

For Windows Me or XP users, it is recommended to activate UPnP for ease of use. To learn how to activate UPnP, please refer to page 9 of the manual.

Double Click **My Network Places** on the Windows Desktop.

Once connected, the device will appear in **My Network Places** as **UPnP E-Storage**, if UPnP is activated in Windows Me or XP.

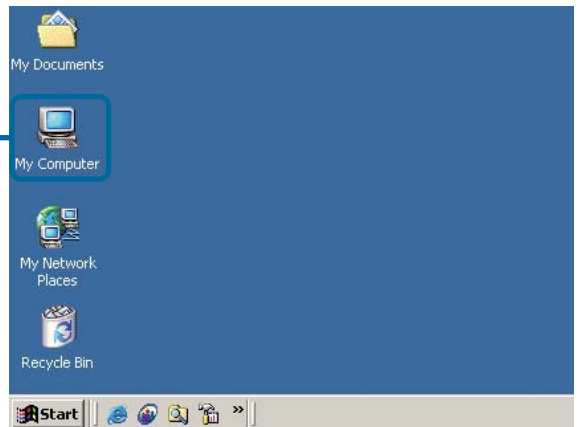

Your setup in Windows XP or Me is now complete!

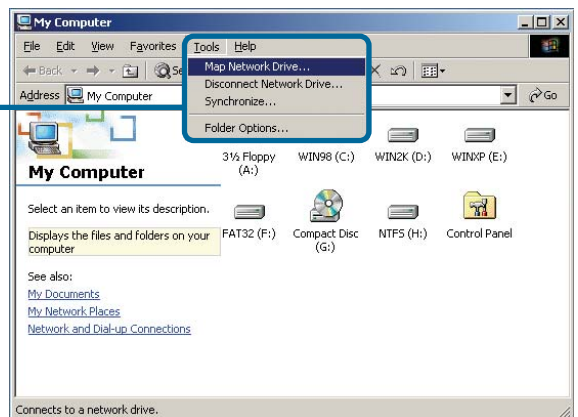

6

Accessing the DSM-622H/624H in Windows 2000

Double click **My Computer** on the Windows Desktop.

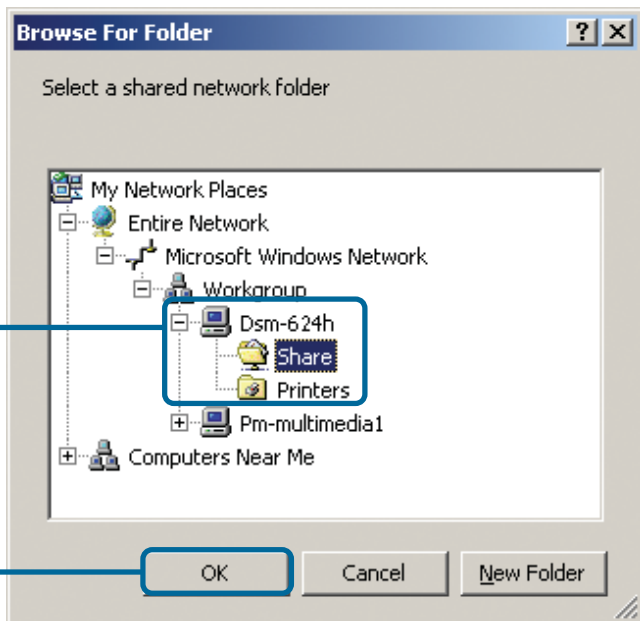

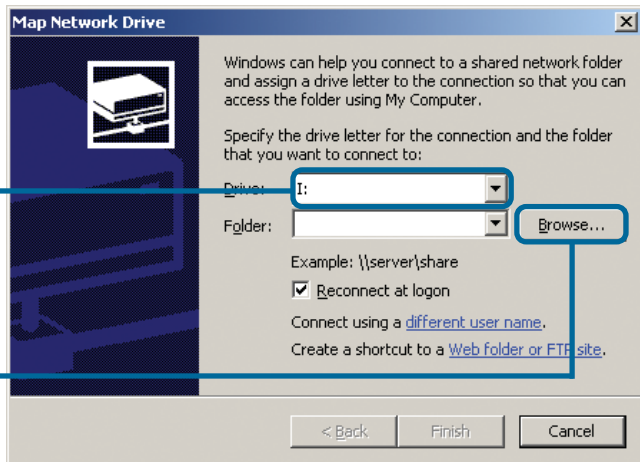

Under **Tools**, select **Map Network Drive...**

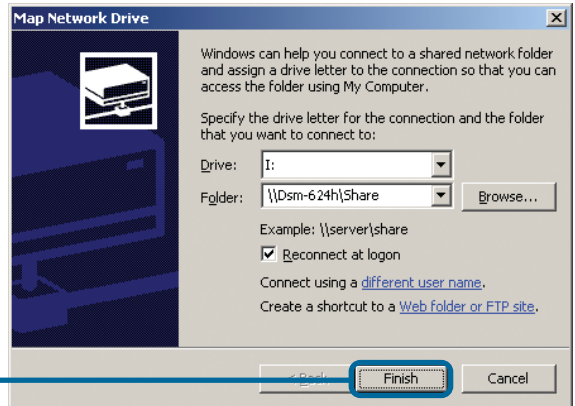

6

Accessing the DSM-622H/624H in Windows 2000 (continued)

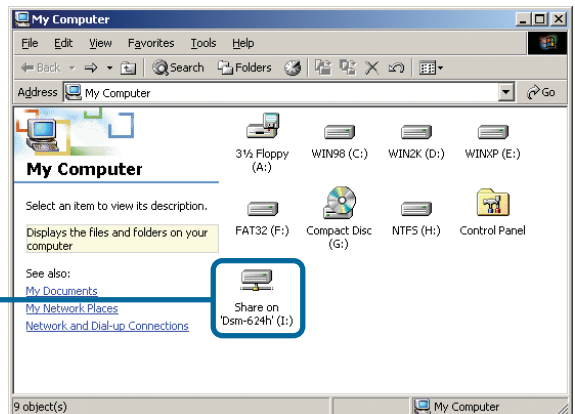

6
